RAILROADS.

WATERTOWN DIVISION OF THE MILWAUKEE & LA CROSSE R. R.

Change of Time.

ON AND AFTER Monday, Oct. 6, 1856, passenger trains will leave Milwaukee twice a day, as follows:
At 7.15 a. m., arriving at Watertown at 11 a. m., and at 3.55 p. m., arriving at Watertown at 8 p. M.
Going East leaves Watertown at 6.45 a. m., arriving at Milwaukee at 10 a. m., and at 2.30 p. m., arriving at Milwaukee at 5.50 p. m.
All the trains make direct connections with the trains of the Mil. & Miss. R. R., at the Junction, taking passengers to Madison, Janesville, etc., and from those places to Watertown. The morning train from Watertown connects with the Trains of the Lake Shore Road, and the evening Train with steamers for Chicago. Stages run in connection with the Cars at Watertown for Madison, Jefferson, Portland, Columbus, Sun Prairie, Portage City, and all principal points west and north west.
oct7 BYRON KILBOURN, Supt.

MILWAUKEE & MISSISSIPPI R. R.

FALL ARRANGEMENT.

ON AND AFTER October 6th, 1856, the trains will run between Milwaukee, Janesville, Madison and Muscoda, which is 150 miles West of Milwaukee and 40 miles from Prairie du Chien, as follows:

LEAVE MILWAUKEE.

At 8.20 a. m., connecting at Milton with the train from Chicago on the St. Paul R. R., arriving at Madison at 1.20 p. m., and at Muscoda at 6.00 p. m.
Leave Milwaukee also at 4 p. m., connecting at Milton with the train from Chicago, and arriving at Madison at 9 p. m.

LEAVE MADISON.

At 7.00 a. m., connecting at Janesville with the St. Paul train from Chicago, and arriving at Milwaukee at 12 m. By this train passengers have time to dine in Milwaukee and reach Chicago by the Lake Shore R. R. in time for the 9 p. m. trains going East.

LEAVE MUSCODA.

At 10 a. m., arrive in Madison at 1.30 p. m., dine, and take the 3 p. m. train for Janesville, where it connects with the St. Paul train and arrives in Milwaukee at 8 p. m., in time for the 9 p. m. Boats to Chicago, arriving there in time to take the early morning trains going East.
The morning train from Milwaukee takes passengers from Milwaukee and Chicago through to Muscoda, where they connect with Davis & Moore's Stages for Prairie du Chien.

This is already the shortest and cheapest route to the Upper Mississippi.

A train leaves Madison at 8 a. m. for Muscoda, and returns, leaving Muscoda at 4.30 p. m., on the arrival of the Stages from Prairie du Chien. By this arrangement passengers leaving Prairie du Chien in the morning reach Madison at 7 p. m. of the same day.
Passengers who leave Madison at 7 a. m. via Janesville and St. Paul R. R. arrive in Chicago in time for the 8½ p. m. trains East.
Passengers by Davis & Moore's Stages will be conveyed to and from the several stations on the arrival and departure of the Cars, to Galena, Mineral Point, Dodgeville, Richland City, Baraboo and Sauk City.

The old Eagle going it with a Rush!
THE EAGLE
STEAM FOUNDRY!
— OF —
TURTON & SERCOMB,
296, 298, 300, 302 and 304 West Water St.
IS STILL IN FULL BLAST, WORKING DAY AND night to supply the daily increasing wants of the Badger and other States.
In order the better to do this, the proprietors have erected a large brick Foundry in addition to their former premises. They have added to their stock of Tools a large Planing or Shaping Machine, three Lathes, and a Machine for making bolts, and are now putting in a Steam Engine of — horse power to drive the whole, thereby adding to their former facilities for the successful carrying on of the Foundry, Machine, Engine and Blacksmithing business. They never were in a better position for doing business, and
DEFY COMPETITION
in any department.
In regard to the character of the work got up by this
The Oldest Establishment in the State
the Proprietors refer to that in successful operation through the country as their best recommendation, as it can speak for itself. All they can say is, that they are both PRACTICAL MECHANICS, and know how work should be done as well as the next man.
They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, on the most approved principle.
They have always on hand a large stock of BRASS WORKS, such as GUAGE AND CYLINDER COCKS, OIL CUPS AND GLOBES, and STEAM WHISTLES. Also BOSTON'S FILES, which they will sell at the lowest cash price.
They are also Agents for EASTMAN'S PATENT STEAM GUAGES, which are well worth the attention of all those who use Steam Engines.
In conclusion, they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained.
Their motto is, "Excelsior."

THE DAILY SENTINEL.

RUFUS KING & WM. H. WATSON,
PROPRIETORS,
Under the Name and Firm of Rufus King & Co.

MILWAUKEE:
Tuesday Morning, December 30.

Wisconsin Almanac and Annual Register for 1857.

We shall publish, on or about the 1st of January, No 2 of our Wisconsin Annual Register, containing, in addition to the Calendar for the year, Description of Wisconsin, List of Members of all the successive Legislatures, Tables of all the general Elections held in the State, Census of 1855 by towns, &c., &c., an Appendix, giving much other valuable matter. We propose to add to the matter contained in the Register for 1856, the Election Returns for last November, by towns—the new Apportionment Bill—the Assessment and Equalization of Property for 1856—the Vote of the Union for President—besides other valuable statistics for reference, the whole making a pamphlet of about 120 pages.

Price for single copies, 25c; a liberal discount made to those who buy to sell again.

RUFUS KING & CO.

To Advertisers.

We shall have a few pages for advertisers in the *Wisconsin Almanac and Annual Register*, which we hope to issue about the 1st of January. As the pamphlet will be one of great value for frequent reference, it is an excellent medium for advertising. Those who desire to avail themselves of it will do well to make immediate application.

From our New York Correspondent.

NEW YORK, Dec. 22.

Our clerk of the weather, Mr. Merriam, has let us up to-day, his latest and pretty sharp cold spell being over without completing its cycle, I believe, tho' it lasted quite long enough for comfort so early in the season. It is to-day fine bright weather; there has been no snow, and ice has formed all around us, strong and smooth, promising glorious times for the boys to skate during the holidays, and encouraging the beautifully furnished shops of every kind with the prospect of abundant customers for Christmas, always more or less dependent for the ampleness of its presents, upon the state of the weather.—All now looks very promising for a merry Christmas. I hope it will be a merry one in Wisconsin too, as well as here, for it is such touches of common rejoicing in a common blessing, that make us all one kin.

Congress is doubting about formally adjourning over the holidays. It had better be done manfully and openly, than sneakingly, by pretending to sit and adjourning for want of a quorum, or unwillingness in the absence, certain to occur, of a great many members, to do business. The speculations about Mr. Buchanan's probable course and policy assume, or appear to assume among the harmonious democracy, a little more activity, with a good deal less of unanimity.—The South, by the tone of dictation and menace assumed by the Richmond *Enquirer* and some of the New Orleans papers, would seem to apprehend that Mr. Buchanan may, after he has clutched the sceptre, show what hitherto has seemed to be deficient in his organization, *backbone*, and that he will not be driven by the circle of the Southern Whigs. I have no such faith. A *backbone* is not the part of a man that can be parted with and retained at will, and Mr. Buchanan has so long dispensed with its use, that now it would embarrass him, I apprehend, very much. He will be more at ease and more at home by continuing *supple*—which our Yankees pronounce *soo-ple*—as heretofore.

There was a gathering, amid a pelting rain storm on Saturday night, of a genuine collection of the fillibusters of our city, to coax fools into embarking in the Nicaragua scrape, taking care, as the leaders of this movement, like Col Ward Burnett and Capt Rynders, to keep their carcasses from bodily harm. There have been times in this country, and Presidents, that when an officer of the Government ventured in a public meeting to denounce the laws of the country, and invited his fellow citizens to violate them, he would at once lose the public employment, which might thus, if not taken from him, seem to sanction such an indecent exhibition. The man called Capt. Rynders, of no repute here, and only known through his connection with a band of political bullies called the Empire Club, and for whom a place was made, (it did not exist before,) by this dynasty as Assistant Surveyor of the port of New York, with a salary of 2 or 3000 a year, and very light work, appeared at this *pirate* meeting, as one of the chief advisers and instigators. He probably knows whom he serves, and that the risk is not great of such violation of duty and law.

TUESDAY, 22d.—I was interrupted yesterday, and to-day have a practical illustration of how vain are the anticipations of men or boys as to the joys of to-morrow. Our fine weather has disappeared; our clear, smooth ice is covered with snow; our streets are most disagreeable for the multitudes who usually throng them at this season; pleasure seekers, and givers of gifts, and the caterers for the public taste and amusement and the joys to the Christmas fireside, look as gloomy almost as the skies, which still from time to time send down flurries of snow, and look leaden and forbidding between.

There is, I think, a feeling of anxiety about the Cunard steamer America beginning to manifest itself. She is now in her 17th day and not heard of at Halifax, where she should touch on her way to Boston. The Ericsson, a substitute in the Collins line, is still longer over due, being out since the 3d of December. The Baltic of the 10th might well be here, but the ocean has been swept with terrific storms, and that may account for the delay without any great apprehension of serious accident. The shipwreck on the Jersey shore, of the ship New York, with some 300 passengers, which occurred a day or two ago, and of which we have not as yet full particulars, was marked by great brutality on the part of the crew, who, while the captain was away in his boat landing at the hazard of his life some of the passengers, broke into and took possession of the cabin, found liquor, I suppose, and when the captain returned and ordered them to duty, they attacked and beat him, so much that his life is endangered, and they treated the surgeon of the ship almost as badly. Every effort will be made to bring the ruffians to punishment.

Catalogue of the University of Milwaukee.

We have received a copy of the Annual Catalogue of this Institution, neatly printed at Starr's Job Office. It shows the total number connected with the University the past year to have been as follows:

Collegiate Department,	8
Academical,	116
Primary,	55
Total,	179

The following gentlemen compose the Board

REV. CHARLES WILEY, D. D., Chancellor, and Professor of Mental and Moral Science.

G. S. LORD STARRS, A. M., Professor of Ancient Languages and Belles Lettres.

GEORGE BOSWORTH, A. M., Professor of Mathematics and Natural Philosophy.

THEODORE B. ELLIOTT, Principal of Primary Department.

REV. N. DAUBER, Professor of Modern Languages.

The Trustees of this Institution have recently taken action for the erection of a building appropriate for its use, and such a one as will be a credit to the city. They contemplate the expenditure of $35,000 or $40,000 upon the building, if such a sum can be raised. There ought to be sufficient local interest in the establishment of an educational institution of the highest class in our city to give the Trustees speedy success in their undertaking.

Barnard's American Journal of Education for December.

This number—itself a volume of over 300 pages—concludes the first year of this periodical, devoted exclusively to the history, discussion, and statistics of Education, in every department, from the family to the university, in every civilized country. This number contains articles by the editor on "*Gradation of Public Schools in Cities*," on "the Condition of Public Schools in each of the United States," drawn from official reports, on the "*Dudley Observatory at Albany*," on the "*Peabody Reception at Danvers*," on the "*Norwich Free Academy*" recently endowed with a subscription of $100,000; by Bishop Burgess of Maine on "*Religion and Public Schools*;" by Edward Everett, on "*the uses of Astronomy and on its Commercial Character*," by Dr. Reid on the "*Education of Architects*," by Mr. A. Dwight on "*Art—as a branch of Education*," by E. Edwards on "*the Educational character of Nicholas Tillinghast*;" by G. F. Thayer, "*on the Duties of Young Teachers*;" by J. C. Gulliver "*on the scope of a Public High School*;" by Prof. Snell on "the Gyroscope," that curious mechanical paradox, besides a large amount of European Educational intelligence. There are three portraits on steel, viz: of WARREN COLBURN, NICHOLAS TILLINGHAST and GEORGE PEABODY, together with twenty-one wood cuts illustrative of recently erected school buildings of the first class.

This Journal is conducted by HENRY BARNARD, L. L. D. who has had twenty years of experience as Superintendent of Public Instruction, and published by F. C. Brownell, Hartford, Conn. It is pronounced by the *North American Review* "the highest educational authority in this country," by the *Westminster Review*, as "superior to any thing of the kind in England;" by the English *Journal of Education* "as deserving of a world-wide reputation." Our readers who wish to possess a first-class literary and educational periodical, or aid in the establishment of an Encyclopædia of Education, should subscribe to this work. It numbers among its contributors some of the first writers in this country.

Southern Commercial Conventions.

Of all the absurd doings of men ordinarily called sane, and truly sane as to most matters, in these modern days, commend us to those reported of the "Southern Commercial Conventions," which annually meet, and like high pressure steamers at a landing on the Southern rivers, blow off their steam, and then adjourn, each member bent on getting up his steam again in the interim, prepared to blow off again at the next opportunity.

These men want manufactories, but will not build them and run them. They want steamship lines, but have no business for them. They want—but what do they *not* want, except plain, practical, common sense? On this subject, we copy below a truthful paragraph from a late article in the Buffalo *Express*:

It has been observed by philosophers, ancient and modern, that mere resolution accomplishes very little. The way of practical men is to open subscription books, and enter a respectable line of figures after a dollar mark, thus, with the help of a good name, transferring life blood into the veins of an otherwise lifeless enterprise. One such autograph there is worth a million strung to the minutes of a garrulous convention. These things our Southern theorists cannot be brought to comprehend. To gather periodically and chatter in a stereotype way over the requirements of commercial independence, has become a chronic weakness of the Southern mind. There must certainly be something lacking in their school books, or they would have learned better long ago. They might have learned better by the most superficial observation of men and their motions, or of the course pursued in communities noted for rapid progress in the road of independent prosperity. That enterprise is hopeless, which does not originate in private interest, and tend directly to individual profit. It is the depth of folly to suppose that a general and contingent advantage will answer the purpose. Legislatures may be brought to act upon such motives; but unfortunately the objects proposed by these Southern wiseacres appeal immediately to individual support and sympathy, and upon no more valid grounds than a silly and misapprehended patriotism, or a spirit of jealousy and dislike of the North. There is, of course, the remote prospect presented of individual benefit from the general measures suggested, but so remote and so dubious that no sane man will care to stake his dollar on the venture. No such vigor has yet been imparted to resolutions as to enable them to bring money from the depths of pockets notoriously ill supplied with that convenience. They have no attractive power for the precious metals; they are not the divining rod that discovers the latent ore. Capitalists do not launch out their resources on the strength of resolving journalists and struggling compilers of statistics. They listen suspiciously to elaborate demonstrations of public needs, they choose rather to see the need demonstrate itself and insure an immediate, not contingent, return for investment.

Fire at Manitowoc—Tribune Office Burned.

We learn from the Manitowoc *Tribune* that a fire broke out on the night of the 21st in the upper story of the building occupied by that office, destroying much valuable property before it could be arrested. The *Tribune* says:

The front room of the upper part was occupied as a law office by Messrs Parrish & Eeslinger. The office of the County Judge was also kept there. Most of the papers of the county and law library were saved, but Judge Parrish lost the most of his private papers, some of them valuable. Most of the type and the larger portion of the furniture and the press of the *Tribune* were saved in a damaged condition. The forms were pied, the type spilled and the furniture broken, and though it may be very poetical and romantic to have an opportunity to speak of the *Tribune* "rising Phœnix-like from its ashes," yet we most cordially object to being compelled to move in such a hurry again, particularly on Sunday.

In the attempt to get out the press of the *Tribune*, the editor, Mr. Smith, was injured, and several others had narrow escapes from death by the falling of the cornices. The *Tribune* says:

Two others had their arms and hands badly bruised, and two others were injured (one of them seriously) as other buildings were being pulled down.

The building on the corner occupied as a Book Store by A. L. Moodey next took fire, but most of his goods and his domestic furniture were all saved, without much damage. The building owned H. M. Todd was totally destroyed.

Messrs. Sherman & Barber's shoe store next took fire and after being completely emtied of its contents was pulled down.

The aggregate loss and damage will not fall short of $4,000.

The Tribune building was owned by Judge Parish, who is perhaps the heaviest loser. His loss is estimated at $1500, no insurance.

The building owned by Sherman & Barber, was valued at $400; no insurance.

Todd's building was worth $500; insured for $225.

Our loss and the damage to our business will not probably exceed $500, though as yet we can only estimate the damage, having been unable to procure another office until the date of present writing, (24th).

The Law of Assessment.

We would like much to call the attention of our Legislature to the law of assessments and the manner in which the law is attempted to be carried out.

There needs reform here of a radical nature. The law requires that the assessment be made upon the *cash value* of property—yet, under the practice, property is assessed at from one-seventh to one-fourth of its value. There should be something done by the coming session of our State Legislature to remedy this great evil. The present practice amounts to moral perjury, it nothing more.

For instance, the assessed value of the real estate in the town of Monroe, including the village, is seven dollars and a half per acre. The cash value of this whole township, including the village, is, at the lowest, forty dollars an acre. We give this as only only one instance out of the general practice throughout the State. Every one can see, at a glance, where this practice leads to, and when we know, as every one must, [illegible] that were the assessments made all over the State upon [illegible] real cash value, that equal justice would be done to all, [illegible] the practice is fraught with injustice, and moral perjury.—*Monroe Sentinel.*

☞ Our streets are thronged now every day, and wear an exceeding lively appearance. Loads of country produce crowd along the side walk, leaving a very narrow passage down the middle for the stream of travel, making it quite a feat to pilot a "fast team" through the crowd.—*Oshkosh Courier.*

The Atlantic Telegraph.

The stupendous project of connecting the Old World with the New, by an electric cable laid upon the bed of the Atlantic Ocean, begins to assume the appearance of success. The necessary amount of capital, £350,000, has been subscribed in shares of one thousand pounds each. Twenty per cent. of the subscription has already been paid in; the English Government has guaranteed to the stock an annual interest of four per cent. and invitations have been issued to the manufacturers of telegraphic wires to submit estimates for constructing the cable, according to a pattern, with security that it shall be completed and ready for shipment on the 31st day of May, 1857. Two steamers, each having one half the cable on board, will meet in mid-ocean, and, joining the electric band, will move—the one toward the Eastern, and the other toward the Western Continent, running off the cable into the sea behind them, until they touch the opposite shores of Ireland and Newfoundland.—It is expected that this work will be finished by the first day of July next.

The route of the cable will be between the parallels of 48° to 52° of North latitude, along a remarkable steppe, which has been discovered by soundings at the bottom of the sea, between Cape Race in Newfoundland and Cape Clear in Ireland, and which is already known as the telegrapic *plateau*. The great circle distance between these two opposing shores is sixteen hundred and forty miles, and the greatest depth of the sea, along this route, is, according to the recent soundings made by Lieut. Berryman, in the U. S. steamer Arctic, not more than two thousand and seventy fathoms—about 12,420 feet. This depth is reached at a point nearly equi-distant from either shore.

The bottom of the ocean, along which the electric wire is to be stretched, is generally a fine calcareous earth, free from all abrading materials, and resting forever in perfect repose, beyond the reach of those winds and angry currents that vex the waters two thousand fathoms above. Now and then an iceberg, drifting along the surface of the sea, drops its melting masses down into those sunless depths; and brave old ships, vanquished by the storm, sink and settle slowly into this fleecy bed, which gradually rounds over their forms, as the snow rounds over the perishing traveller. The electric cable once buried in this silent sepulchre, will remain free from every disturbing influence, and the whole difficulty in stretching it across the Atlantic Ocean will consist in getting it down to these far depths, not in retaining it safely there.

But from this pleasing picture we must turn to another—its opposite; for there is one important element in the organization of this Atlantic Telegraph which is worth nothing, as it tends to destroy much of its prospective value to the United States. The Company, though it was originated by our own citizens, will be exclusively under English control. Two hundred and sixty-two shares, representing £262,000 of its capital, are owned in England, while only eighty-eight shares, representing £88,000, are owned in the United States. The landings of the cable will be in English territory. The eastern end will land at Valentia, a harbor in the south western extremity of Ireland about forty miles directly west of Cork, and the western end will land at St. Johns, in Newfoundland. This fact may be of little consequence in the piping times of peace, but in times of war it becomes a matter of great moment. In the hands of Great Britain, the electric cable would then be a powerful antagonist, with which it would be impossible for us to cope. It is, doubtless on account of this advantage that the English Government has been induced to grant to the Company an annuity of £14,000, and to place at its disposal such naval service as may be needed in sounding and laying down the cable. And it is for this very reason that our own Government should hesitate about granting to the Company a similar charity, which will be asked for by and by.

The Atlantic Telegraph, when completed, will be the wonder of the age. But it can never be extensively available to the United States, unless the Western end of the cable shall be landed on our own shores.—*N. Y. Times.*

The Accident to the America.

From the Liverpool Mercury, Dec. 12.

Yesterday morning the British and North American royal mail steamship America, Capt. Long, returned to this port in a disabled state, having encountered a severe gale in the Channel. The America sailed from the Mersey on Saturday last, with a large number of passengers and the usual mails, for Boston. After leaving the port she met with very severe weather, but continued her course without interruption until the morning of Tuesday last, the 9th inst. She then lay to about 50 miles west of Cape Clear. While in this position she was struck by a tremendous sea, the gale raging at the time with terrific violence. The decks were completely swept, and considerable alarm was created on board, more especially among the passengers.—The bulwarks were carried away, as well as three boats. The steward's pantry suffered in a similar manner, a great portion of the contents being destroyed, and the force saloon completely gutted.

The vessel sustained other damage, though of minor importance. One of the crew was badly injured, having received a compound fracture of both his legs. Others of the men were more or less injured, but not seriously. The shock was so great as to knock the furniture about in all directions, to the great consternation of the passengers, some of them having sustained slight bruises. It is said that five seamen were carried off the vessel by the sea, but most miraculously driven back by a returning wave, only one, the man previously referred to, receiving any serious injury. Capt. Lang maintained the utmost coolness and self possession during the trying scene. Finding the vessel in such a disabled condition, he had no alternative but to put her about, in order to save the ship and passengers. This being done, he steamed direct for this port, where he arrived at an early hour this morning. The America now lies at the Huskisson Dock, and will require to be laid up for some time for repairs.

Oshkosh.

The Oshkosh *Democrat* gives a glowing account of the business and prospects of that young city. It says:

We believe there is no place in Wisconsin or in fact in the West, which has grown so rapidly as has this city within the last eighteen months. At the same time this great increase has not been of the fungus kind. It is strong and healthy. One year ago last June, Oshkosh contained a population of about four thousand, and now it numbers over eight thousand inhabitants. Nor is this fact strange, when we consider our resources, and the demands of the surrounding country. During navigation, no less than fourteen steamboats run regularly to this point, most of them touching daily, and some of them twice each day. We have fourteen steam saw mills, one of which runs over sixty saws. We have steam grist mills, steam shingle machines, foundries, and other manufacturing establishments, which would be a credit to any place east or west. Our connexion by water, with the immense pineries in the north of the State, is such that it will always be cheaper to raft the logs here to be sawn, than saw them anywhere else. The Rail Roads which are now being built, will be finished to this town within the next eight months, and will open the best markets in the world for every foot of lumber which we can saw and every pound of produce we can export.—Situated at the mouth of two of the principal navigable rivers of the State, we have an immense country dependent upon us. Besides the pine land, there is a farming country as rich as any anywhere, which is fast filling up, and is already dotted with thriving villages, all of which seeks Oshkosh as its natural centre. There is no better point in Wisconsin, for wholesaling of all kinds And business men are beginning to discover this fact, as we should judge from the number of wholesale merchants who have lately brought here extensive stocks of goods. The business of supplying those who spend the winter in the pineries, with their provisions, and all things necessary for their lumbering, is done here, and is an item of great importance.

THE STORM IN IOWA.—We clip the following items from the Iowa City *Republican*,

TERRIBLE SNOW STORM.—The terrible snow storm which visited this portion of the State, a little more than a week since, visited with redoubled fury Fort Des Moines. It commenced on Monday and lasted until Wednesday. Such was its violence, that persons were lost and almost perished in the snow drifts in passing from one portion of the city to another. Men dare not venture out, such was the terror inspired by the storm.

SHEBOYGAN AND MISS. R. R.—The Sheboygan *Journal* says of this road:

We learn, that already *nine miles* of the grading is completed, and more than half the masonry built. The ties for the track are coming in rapidly, and quite a large number of men are employed in getting out the timber for the bridges, which are to be put up early in the spring.

A FAIR HIT.—An effort will be made to pass an act providing for the erection of a new and additional penitentiary, to be located in the Northern part of the State, somewhere near Chicago, it is presumed, the present penitentiary being too small—to our discredit be it said—to [illegible] wants of our State. By looking [illegible] it will be [illegible] accommodate the [illegible] ing over the report of the warden, [illegible] seen that a great number of the present convicts were sent from the city of Chicago. Some wag has proposed, that in lieu of a new penitentiary, an act be passed providing for the building of a wall around Chicago, which he supposes will answer the same purpose.—*Springfield Correspondence of the Missouri Republican.*

Cruelties at Cayenne.

We, the undersigned political refugees from the Devil's Island, at present in New York, call the attention of all generous hearts to the unhappy lot of two Italians, Galy and Rossini, political prisoners, who for three years have suffered the most frightful tortures in French Guiana.

Galy and Rossini were transported to Guiana on the 21st of April, 1853, in the barge L'Allier. During the passage they were separated from the other political convicts, and hidden from them. On their arrival in Guiana they were confined to the dungeons of the Diamant, a fort situated a few miles from Cayenne, in a very unwholesome place, and loaded with irons. They were afterwards transferred to the cells of the Castor, an old hulk divided into cells, where they were separately subjected to the most rigorous treatment. Last February, on the arrival of the last convicts at Guiana, the jailor of the Castor was humane enough to allow Rossini to come out of his poisonous dungeon to get a little fresh air on deck. M. de la Richerie, director of the penitentiary establishment at Cayenne, happened to arrive just then; perceiving the privilege which had been allowed to the prisoner, he grew livid with rage, abused the captive, and pronounced these words, worthy of a barbarian: "Put this beast in his dungeon. he is condemned to die there!" So the bolts closed on the unfortunate Rossini.

They are now in the cells of Chateau Rouge, so called by its patriot victims. The prison is one of the eminences of L'Isle Royale, and its many cells and dungeons sepulcher some of the best hearts of France. It is there, two thousand leagues away from French soil, that the infamous stake is erected for the crucifixion of Republicans, and scenes pass which are revolting to humanity. The physical and mortal tortures which they have suffered for three years, has reduced them to living skeletons. When they are sent to the hospitals they are chained in their beds: they are never allowed to take exercise, and when they get a little better it is only to be sent back to their dungeons.

The executive has always endeavored to conceal their position, and has kept them in solitary confinement from the beginning; in spite of the remonstrances of the other political convicts, our two brothers are cruelly persecuted, and their cries are satisfied by locks and bolts.

In the name of those two unfortunate Italians, we appeal to all feeling hearts to unite with us in protesting against such depths of iniquity.

Trouble with China.

Late advices state that a serious disturbance had occurred at Canton. The Chinese mandarins seized a vessel under English colors, and cut off the heads of the crew. The British Consul demanded an explanation, but the mandarins had thought proper to give the Consul no reply. Commodore D. Elliot, of H. M. S. *Sybille*, seized a mandarian junk, and sent her into Hong Kong, from which she managed to escape during the night. Her Majesty's steamer *Samson*, Commodore Hands, with H. M. S. *Encounter*, left Hong Kong at 2 P. M., Oct. 18, for Whampoa, with a large force of Marines and blue jackets. Admiral Sir Michael Seymour is fortunately on the spot, and, if we may judge by his recent determined conduct in Japan, he will not be disposed to stand much, if any, nonsense. It is both expected and hoped that His Excellency Sir John Bowring will insist on the gates of Canton being opened this time; for, until free admittance is obtained into the city, we cannot look for that respect and security which guarantee the continuance of peace and the advancement of trade. The circumstance of our having a large fleet of ships-of-war in the China seas offers a very favorable opportunity to adjust several matters which have remained long outstanding.—*N. Y. Herald.*

AN ANTIQUARIAN BANQUET.—A correspondent of the Boston *Journal* gives the following account of an interesting and unique entertainment that recently came off in Needham:

On the evening of December 11th there was an antique supper and levee at the Town Hall in Needham, given by persons connected with the church and society in the West Parish. Though the weather was unpropitious, the assembly was large and respectable, composed of the inhabitants of the town and delegations from the neighboring villages. Mr. Jonathan Fuller presided, assisted by Major Wright and others. The tables were bountifully spread in the style of 1776, with turkey, chickens, beef and pork; immense pewter platters, covered with "biled vittles," baked beans, hulled corn, succatash, hasty pudding, beside other puddings and pastry in great variety, with a plentiful sprinkling of mugs of hard cider.

The company at the table presented a very amusing appearance. Here was a party dressed in the costume of matrons of Revolutionary memory, of the Court and the camp, of the parlor and the kitchen, and opposite them another company of young men, with the powdered wigs, top boots, breeches and skirted vests, which were worn a hundred years ago by their fathers, personating every variety of profession and calling of the "olden time." On an elevated platform sat ladies attired in the style of the nobility and of the court, with powdered hair combed back from the forehead and gathered in a knot behind, surmounted with an immense comb, with tiny fans in hand, and talking with the profusely powdered gentlemen who were bowing before them. On the next seat sat the grandmother, with her gored dress, neat handkerchief pinned across her breast, and her double frilled cap border bound under her chin with a fillet of black velvet. She had just left her cards and spinning wheel, her reel and distaff. In one of the rooms below, the "Old Folks at Home," received calls at their fireside. Around this the pumpkin was drying and the squashes hung suspended from the wall. After the repast the company were entertained by incidents, reminiscences and music of the olden time.

THE U. S. ARMORY AT SPRINGFIELD—THE LAST YEAR'S WORK.—In the Armory at Springfield there have been in the last year 3,000 of the new rifle pistol carbine fabricated, half of which are already in service; 2,600 percussion muskets of the model of '42 have been rifled and sighted according to the plan adopted by the Secretary of War; 500 artillery, and the same number sappers' musketoons, have been made; and 160,000 muskets have been oiled and examined. The plan which government authorized for the improvement of its arms—by the adoption of an entire new "model rifle musket," with the Maynard primer, lock, long range sight, graduated from 100 to one thousand yards, and the new "rifle pistol carbine," with the same lock and a range of from one to five hundred yards—has rendered necessary the construction of models of each as standards in future manufacture.

These models, three for each arm, have been made at the armory in this city; one of them with sixty verifying gauges, is retained at the Ordinance department in Washington, and its exact duplicates are to be used in this city and at Harper's Ferry. Sixteen new machines for the manufacture of these arms have been constructed, including six rifling machines for making decreasing groves from the breech to the muzzle of the barrles—a new invention by Cyrus Buckland, the machinist. Each machine will rifle twenty barrels in two hours, and one man can easily tend two machines. Two new machines for tapping and breeching the barrel are also recent inventions, believed to be unrivalled for the purposes for which they were intended. The workman in the shops are still engaged in finishing the muskets, and in preparing the other machinery and tools for the new rifle muskets, which before many months, will become the established regular work of the armory.

Suspended Banks.

The following, in relation to suspended Banks, is from Thompson's *Reporter*:

The accounts from Lancaster all concur in saying vigorous exertions are being made to resuscitate the Lancaster Bank, with a fair prospect of success.

We cannot learn of any movement on the part of the owners of the Canton Bank, South China, Me., toward redeeming the outstanding circulation. The capital was small, and the paper mostly used in the vicinity of the Bank.

The Bank of the Republic, R. I., is a hopeless case—the securities are even worse than represented at first, and we fear the holders of the circulation will realize but a small percentage of the amount.

The reported suspension of the Bank of East Tennessee is contradicted by the papers of that place—*by authority*—and lay the blame to certain Banks at Louisville, Ky. We have had confidence in the officers, and believe all will be right.

The recent rumors to the discredit of the Mount Vernon Bank, R. I., were unfounded. The Bank has uniformly met all demands upon it with considerable promptness.

From present appearances, it is believed the assets of the Manufacturers' and Mechanics' Bank, of Columbus, Ga., will not pay over 25 cents on the dollar. The amount outstanding is about $200,000. A bad failure.

Of the Valley Bank, Md., no new light has broken in upon us, as to the probability of ultimate payment of the notes. The receiver is said to be doing all he can to secure the bill holders, and says if the Lelands are able, they will have to pay the bills in full. The circulation outstanding is about $190,000. The money is not bought by the brokers.

The Ellsworth Bank, Me., is purchased by the brokers generally at 50 cents on the dollar, in hopes of ultimately realizing something over that, but, from present appearances, with little prospect of success.

INDIANA STATE BANK.—The new bank of the State of Indiana goes into operation on the 1st of January. The act for its establishment was granted in 1855, and its organization is now complete. It has a capital of $6,000,000, and power to create twenty branches, which branches have been judiciously located throughout the State. The charter is a safe and liberal one—the State owns no part of the capital stock. Under the constitution of the State, no other Bank can be created excepting under the Free Bank State Stock system. Two millions of the capital stock in the new Bank has been taken, with power to increase the same from time to time to $6,000,000. Most of the Branches of the new Bank have got into the hands of parties owning and controlling the branches of the old Bank, so that the old branches are absorbed quietly in the new. Hugh McCulloch, Esq., is President of the new Bank, and James M. Ray, Esq., Cashier. These gentlemen have been connected with the old State Bank from its organization—the former as Cashier of the branch at Fort Wayne, the latter as Cashier of the State Bank at Indianapolis both men of ability, and possessing the confidence of the people of that State.

N. Y. Stock & Money Market.

The money market among the stock houses is decidedly easier on all, although the banks generally are not free lenders. Paper goes at 8½a10 ℔ cent for first class, which is scarce, but inferior grades are plenty. The demand for gold by Southern banks has decreased, and as the foreign drain is quite small there is an impression that we shall be able to hold on to most of the next California arrival.

The semi-annual interest on the bonds of the La Crosse and Milwaukee Railroad Company will be paid on the 2d proximo; also, the interest on the Milwaukee and Watertown Railroad bonds—both by Atwood & Co., No. 5 Wall street.—*New York Tribune, Saturday.*

MARINE INTELLIGENCE.

☞ The Ogdensburgh *Journal* says the steamer *O. S. Howard* sunk near the grain elevator at Ogdensburgh, Wednesday morning. While engaged in extricating a vessel she struck on the ice with such force as to knock a hole in her stem, causing her to fill and sink rapidly. She now lies in about 18 feet of water, and it is thought she can be raised during mild weather or in the spring. Those on board escaped on to the schooner. The top of the smoke stack and flag pole are all that protrude from the water.

NEW VESSEL.—We notice in the ship-yard of Mr. Beaupran, the frame of a new vessel, for Chr. Raab, of this city. Dimensions as follows:

Length of keel....................105 feet.
Breadth of beam.................. 25 "
Depth of hold.................... 8 "

Mr. Goddard's Lecture on Saturday Night.

We cannot give our readers a full report of Mr Goddard's lecture on Saturday [illegible] no synopsis of it could do justice to a lecture of that night and so finished in its every portion. We can only say that we went with some slight misgivings as to the possibility of the lecturer's [illegible], which had been given him. But we were soon [illegible] and the conviction grows stronger as we reflect on it that we have had no lecture in Milwaukee so full of [illegible], and so crowded with fine expression, as the lecture of Saturday evening. Why, individual gems might be taken out of it to set up a *whole course* of such lectures as generally delight us. We have said that we cannot give any synopsis of the lecture, but for the truth of what we have stated we need only refer those who were there to his drawing of the parallelism between Music and Painting, and the admixtures of Tone and Color, of tone and shade, or to that thrillingly perfect illustration of the Art of Music by the natural history of the serpent, or that exquisite little word picture of childhood and growth with which he closed. To be sure, there were minor omissions of the lecture to which we could not assent but as a whole his lecture carried us with it, and taught us in sentences more vivid and enchanting than we ever heard from lecturer, what is true art, and who the artist. We only wish that the evening had been tolerable in point of weather and that the lecturer might have been met with a more nearly adequate house.

It will be seen that Mr Goddard lectures again on Wednesday evening. That we know is hardly a favorable evening, but the hall could not be had for any other, and the lecture is fixed *for half past seven* instead of eight o'clock. We hope he may have a house full to hear his lecture on *Milton's Satan*.

Shocking Murder in the Third Ward.

About 11 o'clock on Saturday night a woman named Higgins was brutally murdered at the door of a shanty, or small house on the Lake Shore some distance south of Higby's Pier.

As near as we can learn, the particulars are these:— Higgins and his wife came in on some train, probably the Watertown, in the forenoon of Saturday and proceeded to the shanty of a fisherman named Dawson, and staid around there until the time of the murder. Shortly before 11 o'clock, word was brought to policeman R[illegible] that a woman had been killed on the Lake Shore. The officer proceeded there and found the woman, Higgins, dead from several stabs in the breast, one of which proved on the *post mortem examination* to have penetrated the heart. The deceased had seven stabs in her breast and body.

The officer arrested Higgins, and conveyed him to the Watch House, and afterwards arrested Martin Morris, and with the aid of Policeman Collins arrested Dawson, at whose door the deceased was found.

It seems, as near as we can get at the facts that the parties were drunk, the woman evidently so at the time she was killed. The wounds were inflicted with a common pocket knife, and on the thumb of the right hand of Higgins, is a deep cut to the bone, corresponding with the size and shape of the knife blade and a good deal of blood on his clothes.

There was a quantity of blood [illegible] the clothes of Dawson, whose statement is that he went for a bottle of whisky, and when he returned and found the woman lying at his door that he stepped over her feet and on inquiring what was the matter with her, he was answered that she was killed.

Higgins claims that the cut on his thumb was from a fall on the ice, and the blood on his overalls, from his nose having bled. Dawson accounts for the blood on his clothes, from his having helped to raise the woman, after he found she was killed.

When the officer proceeded to the house of Martin Morris, and while searching him, he says Morris remarked, that he would find no person's blood upon him, and that this was said before he had disclosed the object of his search.

The deceased is a cousin to Morris and of his wife, and it seems, on Morris having invited her to come to his house, she refused, telling him that he had left a wife and children in Ireland and that [illegible] followed this charge.

Higgins and his wife are Irish. Dawson is of Irish parentage, but was born in Ohio and it is said by some, is a Mormon.

The knife with which the woman was killed and which fits exactly every wound in her body, was found by the Police, shut up with the blood still on it, and placed in the woman's dress.

No inquest was held, as the case goes directly to the Grand Jury now in session.

POLICE COURT, DECEMBER 29.

BEFORE CLINTON WALWORTH, POLICE JUSTICE.

George Bochner and Henry Schmidt, were each fined $6 for drunkness, and in default of payment were sent to jail 10 days each.

Peter Chase, drunk, fined $1.

John Lee, charged with disorderly conduct, was discharged for want of prosecution.

Frances Phillipp plead guilty to an assault and battery upon John Rabenmucher, and fined $10 and costs.

SABBATH SCHOOL CELEBRATION.—The lovers of the Sabbath School cause may expect a rich treat this evening, the 30th inst., at the Spring Street M E Church. The ladies connected with that Society have decorated the Church in a handsome style, and the singing and speeches to be delivered on the occasion, will be instructive as well as amusing.

Those who wish to be carried back to their boyhood days had better attend. The Christmas Tree will well repay the admission fee. All go, see and hear.

1ST PRESBYTERIAN CHURCH SUNDAY SCHOOL CELEBRATION.—The pupils of the Sabbath School connected with the 1st Presbyterian Church, have a celebration to night of a novel and interesting character, for which preparation have been making for some time. This school is one of the largest, (if not the largest), and best managed in the city, and we do not doubt that all who attend will be pleased.

FAMILY BIBLES.—About these times when heads of families are looking about for suitable presents would it not be well for them to remember *themselves* with New York Gifts once in a while? FORD & FAIRBANKS have a great variety of Family Bibles peculiarly appropriate for the purpose. Their assortment, in style and finish, is one of the best ever brought to this city.

LIGHT GUARD'S BALL.—We have but a moment in which to notice the fact that the Ball of the Light Guards last night was *the* party of the season. The Hall was decorated, and crowded with the beauty and fashion of the city.

LECTURE TO-NIGHT.—Dr. PAIGE gives another of his very interesting lectures to night at Young's Hall. See advertisement.

NOTICE

OFFICE OF THE MILWAUKEE & MISSISSIPPI R R Co,
Milwaukee December 19 1856

WHEREAS, the granting of Free Passes, and the applications for the same, are increasing daily, under the present system, notwithstanding the efforts of Railroad Managers here and elsewhere, to keep the same within reasonable bounds and whereas in the opinion of the Board of Directors of this Company, the practice is highly unjust to the Stockholders and injurious to the whole Railroad system, as, in many instances the income of Railroad Companies is very sensibly affected by it, and under the most judicious management, in a vast majority of cases, only results in dissatisfaction. And whereas, the President and Superintendent of this Company having become satisfied from actual experience, that the right, by them, to issue Free Passes cannot be exercised with that limit and discrimination which was expected when the right was conferred nor can it be done to a limited degree, without producing much dissatisfaction, for nearly every person who applies for a Free Pass, no matter to him what are the circumstances of the case, if he is refused, at once charges the Officer or Company with partiality and meanness, and, whereas, they (the President and Superintendent) have requested that the right be withheld from them, as well as from all other Officers of the Company, except in the cases hereafter mentioned:

Therefore be it Resolved, That from and after January 1, 1857, all outstanding Free Passes at that time, except those of Contractors Telegraph Companies and Express Agents, be taken up by the Conductors and returned to the *Superintendent* and that no Officers of this Company shall have the right to grant Free Passes except the President or Superintendent may grant them to the President and Vice President, Treasurer, Superintendant and Assistant Superintendent, Secretary and General Traveling, Freight and Ticket Agents of such Railroad Companies as reciprocate to the same class of Officers.

Resolved, That we respectfully solicit the aid of other Railroad Companies in this reform, so much demanded in Railroad management, that the system may become uniform.

Resolved, That the Secretary furnish a copy of the above Preamble and Resolutions to Railroad Companies, and that the same be printed and placed in all the Depots and Passenger Cars of this Company.

The foregoing Preamble and Resolutions were unanimously adopted at a meeting of the Board of Directors of this Company held this day.

Louisville, Dec 29

The negroes charged with the murder of the Joyce family, took place on Saturday. The Court House was surrounded with an excited crowd, one of whom, the brother of the murdered man, proposed that the negroes should be burned on the spot. The crowd responded in favor of the proposition, but quiet was restored by the court, and the negroes were remanded. The presumptive evidence against the prisoners is strong, but there is nothing direct excepting the confession of one of them.

Another Murder in the Boston State Prison.

Boston, Dec 29

Solon H Kenney, warden of the State Prison, was stabbed by a convict, named Decatur, this evening. He has since died. It is only two weeks ago to day that a deputy Warden was murdered in the same way.

Washington, Dec 29

Supreme Court to day pronounced through Justice Curtis, an important decision affecting the responsibility of masters of vessels for repairs and supplies. Chief Justice Taney and Justice Wayne dissented from the majority of their brethren. The Court held that the captain under contract to sail the vessel was merely the agent and not owner, for the time being, of the vessel, the owners of which were responsible for repairs. Judge Taney occupied the subject as highly important and containing points for the first time brought before that tribunal.

THREE P. M. REPORT

New York, Dec 29

The steamer Quaker City, from Havana, Dec 22d, arrived early this morning. Business at Havana dull, owing to the Holidays.

The Lagrange Opera Troupe opened at Havana the 22d.

The Quaker City passed, in the Florida straits, over 100 vessels bearing Northward.

Baltimore, Dec 29

A fight took place, on Christmas day, among a number of Philadelphia oystermen, in Pawtucket river. One man was killed, and buried at Drum Point, and three others were taken ashore wounded. Three boats were lashed together, and the fight continued all night.

Albany, Dec 29

The steam boiler of Messrs Rogers & Co's Au Sable Works' Rolling Mill, exploded Friday killing two men and severely wounding two others.

Baltimore, Dec 29

The steamer Tennessee, from New York for Nicaragua, put into Norfolk on Saturday, with a broken shaft. Our city is swarming with the Fillibusters, who have come on here from Norfolk. Orders have been sent to New York for another steamer.

Later from California.

New York, Dec 28

The steamer Illinois, from Aspinwall, arrived here this morning with California dates to Dec 5th. She brings upwards of 300 passengers and nearly $1,700,000 in treasure, connected with the Golden Gate and left Aspinwall on the 19th inst. The frigate Wabash left the same day for New York, via Havana. The sloop of war Cyane remained in port. The California news is but of little interest.

Reports from the mining districts are favorable, though there was still a want of rain in some of them.

The money market is unchanged. Business at San Francisco generally dull.

Richard P. Hammond, Ex Collector, of San Francisco, charged with defrauding the U S government, while in office, has been acquitted.

Dates from Panama, are to Dec. 19th.

The Panama *Star* contains an account of the war in Nicaragua, confirming the advices received here by the Tennessee, but gives nothing new. A British squadron arrived at Panama, Dec. 8th. Its object is said to be to examine a naval depot in the bay of Panama, probably at Tabago.

A letter from Carthage of Nov 23d, states that the British difficulty was still pending and the blockade of the New Granadian ports would commence immediately the resolution.

Advices from Melbourne are to Oct 11. News unimportant.

Washington, Dec 29

The Post Office committee in the House are preparing a bill in accordance with Mr Hensons project for carrying the mails in a direct line of steamers, between New York and Glackland(?) via Plymouth, England.

The various standing committees of the house have a large number of bills matured but no opportunity of reporting them has yet occurred.

Railroad Accident.

New York, Dec 29.

The steamship James Adger, will leave this port to-morrow morning, at 10 o'clock, to take the place of the Tennessee, at Norfolk.

The Albany Express train, which left this city at 4 P M Saturday, met with a serious accident near Towner's station, about 6 miles from this city. A broken rail, which had been fractured by the frost on the passing of a previous train, was the cause of the accident. The engine and tender passed over the injured rail in safety, but the baggage car and first passenger car were thrown off the track. The second passenger car was thrown on its side, and the third turned completely upside down. There were, at the time, about 126 passengers on board. The conductor, Mr. Hills, was considerably injured, also some 9 or 10 passengers viz: Mr S Gaskill, of Albion, N. Y., severe contusion of the spine, W Kennedy, of Buffalo, severely cut on the right hand and contusion about the body, Mrs Thompson, of Williamsburg, head badly cut, Mr W. Higby, of N. Y., left arm fractured, Geo Arnold, of N. Y, and Mary Holmes sustained severe contusions. The other passengers, names not known, though badly bruised, were able to resume their their journey.

St. Louis, Dec 29.

Santa Fe mail, via Independance, 20 h, has arrived.

Mining operations progressing favorably.— Heavy snow on plains.

Bent's fort was attacked by the Kiowas, and but for the interference of the Cheyennes, would have been destroyed.

The Kiowas gave the mail train much trouble. Captain Dodge, agent of the Navajos, was taken prisoner.

By the Apaches, the usual Indian depredations are reported.

HEALTHY BREAD!
MADE WITH
JAS. PYLE'S DIETETIC SALERATUS.

THIS article is deprived of the caustic impurities, so well known to exist in all common Saleratus, thereby dealing destruction to thousands not aware of its injurious qualities. So destructive is it to the constitution of children, that where they and the parents have been regular consumers of Saleratus Bread, there is but little chance for recovery from infantile or contagious diseases. In this way thousands meet with premature Death, the sad reality of which is forcibly demonstrated in the mortality among children, in the New England and other States, where warm bread and cake is so generally consumed.

JAS. PYLE'S DIETETIC SALERATUS is of vast importance to the public, and is rapidly coming into use. Being deprived of all caustic impurities, it is quite as harmless as flour. In point of economy it excels *having powerful raising properties, and is altogether superior* to Baking Soda. No intelligent lady will dispute this after trying it.

It is packed in pound packages each bearing the name of James Pyle, without which it is not genuine. For sale by John Furlong & Co, C A Folsom, Chapin & Gregory, Milwaukee. Eldridge, Shoemaker & Co, Madison. A H Jones & Bro, Fond du Lac, Wis. A G Cox & Cong, Chicago. JAMES PYLE,

NOTES EXPLANATORY.

I HAVE received a number of communications both verbal and written in relation to my last advertisement offering "Notes Musical" for sale. To save "time," I take this method of informing these single minded "parties" that I offer them a situation or profession, which is that of a Teacher of the Piano Forte and Singing. What I mean by good investments was and is, that by giving your children a good education you give them that which cannot be taken away. All those, therefore, who have requested this explanation, who may require such services as I offer, are most respectfully invited to extend their patronage in this direct line, remove all doubts about the policy of so doing. I offer to teach here as I did in Virginia by the ¼ month—you can leave off at any moment.

Important to Lumbermen, &c.

THE SUBSCRIBER is prepared to dispose of two licenses to cut timber on the north shore of Georgian Bay, Lake Huron, embracing an area of fifty square miles, or 32,000 acres each. One is situated on Serpent River, near the Bruce Mines. The other is situated at the mouth, and extends up the Shaw-en-ega River twelve miles, and belonging thereto is an almost unlimited water power, near the mouth of the river, up to which vessels of the largest size can ascend. A short distance up the river, the river widens, forming a place in which any quantity of logs can be boomed. The whole forming unrivalled facilities for carrying on a large lumbering business, and lying nearly on the direct line from Collingwood to Lake Michigan. BOERHAVE'S HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,

DISEASE OF THE KIDNEYS,

LIVER COMPLAINT,

WEAKNESS OF ANY KIND,

FEVER AND AGUE,

and the various affections consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections it has in many instances proved highly beneficial and in others effected a decided cure.

This is a purely vegetable compound, prepared on the strictly scientific principles after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States its introduction into the United States was intended more especially for those of our Fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits or other forms of dissipation. Generally instantaneous in effect, it finds its way to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find in this a beverage will be disappointed, but to the sick, weak and low spirited it will prove a grateful aromatic cordial, possessed of singular remedial properties.

CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given BOERHAVE'S HOLLAND BITTERS a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

DYER'S Healing Embrocation cures Rheumatism, Cuts, Wounds, Bruises, Sprains, Piles, Sore Throat, Neuralgia, Burns, Cramps, Swellings, Ague, Tooth ache, Headache, and all external and internal pains.

EVERY workshop and factory should keep constantly supplied with Dyer's Healing Embrocation.

FROSTED FLESH, bites of insects, &c., assuaged by Dyer's Healing Embrocation.

GEO. McBRIDE, of New York, sprained his ankle. Dyer's Healing Embrocation cured it.

HEADACHE and seasickness cured by Dyer's Healing Embrocation.

INTERNALLY USED, Dyer's Healing Embrocation is of the greatest value, particularly in cases of cramp, cholera morbus, dysentery, &c.

JOSEPH T. CARR, of the Providence Tribune, was severely attacked with cramp in his stomach, but found immediate relief in a single dose of Dyer's Healing Embrocation.

KNOWN TO BE TRUE, that Dyer's Healing Embrocation is the best external and internal remedy ever discovered.

LEAVES no stain upon the dress or skin, consistency is effects, but cleanliness in its application. Dyer's Healing Embrocation is the admiration of all who have used it.

MOTHERS AND NURSES should read carefully the testimony of Mrs. R. Wilmarth, which may be found in the pamphlet which accompanies Dyer's Healing Embrocation.

NO FAMILY should be without Dyer's Healing Embrocation.

ONE BOTTLE of Dyer's Healing Embrocation will relieve an immense amount of suffering.

PILES RELIEVED by two applications of Dyer's Healing Embrocation.

QUESTION—What is the most effectual remedy for rheumatism, cuts, wounds, sprains, burns, and other external and internal diseases? Answer—Dyer's Healing Embrocation.

RHEUMATICS, one and all, use Dyer's Healing Embrocation and be cured.

SPASMODIC AFFECTIONS, pain or soreness in the side, back, throat, rest, or stomach, cured by Dyer's Healing Embrocation.

THE inestimable value of Dyer's Healing Embrocation has been conclusively proved, and no person or family should suffer themselves to be without it.

US! Dyer's Healing Embrocation. Many of the most eminent physicians recommend this wonderful preparation with the most perfect confidence, and freely prescribe it to their patients.

VERY IMPORTANT—That every person should keep a constant supply of Dyer's Healing Embrocation by them. A single dose often prevents the most fearful consequences.

WE warrant entire satisfaction to all who use Dyer's Healing Embrocation.

EXPERIENCE has taught thousands the great value which is attached to Dyer's Healing Embrocation.

YOU never need suffer pain if precaution is taken to keep Dyer's Healing Embrocation on hand.

ZEALOUS in a good work is he who is constant in his efforts to relieve the sufferings of his fellow men. Such a one is sure to recommend Dyer's Healing Embrocation to all suffering from internal or external pains.

PORTABLE CAST IRON GRAIN MILL.

Young America Improved and Perfected.

THE above mill was patented by Charles Leavitt, of [illegible] 1855. This mill took the first premium at the Ohio State Fair 1855 over all others, [illegible], and during the Fair of the Fall of 1856 the first premiums over many others in the State Fairs of Ohio, New York, Illinois, Michigan and Minnesota; also, at the County Fairs of the following counties of Ohio and Indiana: [illegible], Crawford, Logan, Medina, Ashland, Wayne, Knox, Montgomery, Clark, Erie, Licking, Richland, Plymouth [illegible] In Indiana: Tippecanoe, Jefferson, Wayne, Fayette, Shelby, Jennings, Warren and Fountain.

Farmers, Bay Mill owners, Livery Stable men and all others [illegible] to examine [illegible] the above mill.

The Young America will grind as much corn in the cob, shelled corn, oats, barley and all other grains for stock as any mill of the same size and with much less draft.

What we claim is great strength, durability and simplicity [illegible] that a child can learn to grind with safety.
